4. Co-Curricular Engagement

- 4.1 House System & Inter-house activities
- 4.2 NCC, Scouts & Guides

5. Sports Achievement

6. Staff Development & Trainings

7. Stakeholder Collaboration

- 7.1 PTA & SMC Involvement

8. Environment & Sustainability Initiatives

- 8.1 Rain water Harvesting
- 8.2 Waste Segregation & Composting
- 8.3 Grey water Recycling

9. Closing Reflections

From Desk

Director

"Jai Hind, Zinda dil raho, jeet tumhari hogi "

At Vijay Central Academy, we believe education is not confined to classrooms—it's about becoming fearless, grounded, and full of life. Let children run, play, stumble, and shine. Sports, laughter, music, and mischief are just as important as marks.

Let's raise learners who are curious, kind, and courageous—not just toppers, but torchbearers.

Stay alive. Stay easy. Success will follow.

– Sanjay Kumar Sigar

Principal

"Excellence begins with intention, grows with effort, and shines through discipline."

The academic year 2024–25 was one of thoughtful learning, meaningful innovation, and steady progress. At Vijay Central Academy, we strive to nurture minds that think critically, act ethically, and learn persistently.

Education is not a race—it's a journey of self-discovery and quiet breakthroughs. Our goal is to help every child find their voice, sharpen their mind, and face the future with confidence.

Together, we are building thinkers, dreamers, and doers.

–Dr. Santosh Soni

About The SCHOOL

Nestled in heart of Jaipur, Established in 2012, **Vijay Central Academy** is a co-educational institution affiliated with the Central Board of Secondary Education (CBSE), New Delhi (Affiliation No. **1730473** | School Code: **10819**), offering classes from Nursery to XII.

At VCA, we believe that learning goes beyond textbooks. With a modern campus, tech-enabled classrooms, well-equipped labs, and expansive sports facilities, we provide an environment where students thrive—intellectually, emotionally, and physically.

*"Here, every child matters. Every dream is nurtured.
Every step is a beginning"*

VCA's vision is to be a leading centre of excellence that empowers learners to become confident, compassionate, and future-ready global citizens.

Our Mission is to provide safe, nurturing and intellectually stimulating environment. To foster academic excellence through innovation, inquiry and interdisciplinary learning. To instill values of empathy, integrity and social responsibility. To equip learners with skills and mindsets for success in a dynamic, global world.

"Our mission is not just to teach—but to inspire, uplift, and ignite the minds that will lead tomorrow"

Curriculum & Pedagogical Innovations

"Tell me and I forget, teach me and I may remember, involve me and I learn."

One of our most transformative developments has been the creation of a lush, grass-covered outdoor learning area, designed to be accessible in all weather conditions. We've introduced a blackboard wall, turning an ordinary boundary into a space for spontaneous writing, drawing, and collaborative learning.

To nurture creativity and motor skills, we've built a soil play zone where children can dig, build sandcastles, and connect with nature through tactile exploration. Our multi-play station is thoughtfully designed, ranging from gentle swings for younger children to an 11-foot slide for the more adventurous. Each play element—be it the calisthenics zone or sensory area—has been chosen to support a specific set of developmental skills.

VCA's dynamic house system, infuses everyday learning with a spirit of healthy competition, teamwork, and belonging. Students are encouraged and mandated to participate across a range of sports activities, cultural pursuits and performance-based activities through a structured participation model.

Our much-anticipated Sports Week, which spans three exciting days, features inter-house competitions and talent identification for school teams. Alongside, we run a rich calendar of literary events, performing arts competitions, and creative showcases—from debates and dramatics to dance, music, and public speaking are to name a few.

“At the heart of it all is a simple goal: to shape individuals who are not only smart, but also spirited, expressive, and emotionally resilient”

Co-Curricular

Scout & Guide

NCC Naval & Infantry

State & National

Champions

The school encourages holistic development through active student participation in various activities. This year, 85 students represented at the state level and 20 at the national level. In NCC, 65 students earned the 'A' Certificate. 6 received the Golden Arrow under cub & Bulbul. 22 Students received Rastrapati Award under Scout & Guide, fostering values of teamwork, service, and leadership.

Staff Development Sessions

With a dedicated team of 62 competent staff members, the school places strong emphasis on continuous professional growth. Teachers regularly participate in CBSE training programs, in-house workshops, and sessions conducted by book publishers to stay updated with the latest educational practices. To foster collaboration and camaraderie, team-building activities such as a special Sports Day for teachers are organized annually. These initiatives not only enhance teaching skills but also promote a positive and cohesive work environment.

"The best teachers are those who keep learning"

Stakeholders involvement

Stakeholder involvement is integral to our school's functioning. In line with CBSE and state government guidelines, we maintain active Parent-Teacher Association (PTA) and School Management Committee (SMC). Regular meetings are conducted to ensure collaborative decision-making and transparency. Information about meetings and decisions is communicated effectively through circulars, ensuring all members are well-informed and engaged. This partnership between parents, staff, and management strengthens the school community and supports the holistic development of students.

As the saying goes ...

"It takes a village to raise a child"

Sustainability Initiatives

Rain Water Harvesting

The school has three rainwater harvesting wells, each storing up to 1,500 litres. These fill during rains and help recharge the groundwater naturally.

Waste Segregation & Composting

We use four color-coded dustbins—yellow, black, green, and blue—for proper waste segregation. Bio degradable waste goes into a compost pit, producing natural fertilizer. Students are taught these eco-friendly practices.

Grey Water Recycling

Wastewater from drains is collected in a tank and reused to water plants, reducing water wastage and promoting sustainability.

Conclusions

From Academic Excellence to Co-Curricular Participation, From Sports Achievements to Sustainability Initiatives, From Staff Development to Stakeholder Involvement

As we celebrate our progress, we also embrace the future—with renewed energy, bold goals, and a continued commitment to holistic, inclusive, and innovative education.

To our students, teachers, staff, parents, and well-wishers—thank you for making this year unforgettable.

Together, we grow. Together, we shine.
